About Coorg

Coorg , one of the tiny Districts of Karnataka, is snugly nestled in the green lap of luxuriant vegetation, surrounded by hills and dales – a beautiful sight to see. Well known for its Coffee, Cardamom, Pepper and Orange of yore. In the midst of such a haven Cauvery College is located – A Centre for Excellence and Learning.

About the College

Cauvery College, Gonikoppal, a premier institution of higher learning, was established in the year 1968. It is located in the rural area, spread over a campus of 22.2 acres. The college offers under graduate courses like B.A., B.Com., B.Sc., B.B.M & B.C.A, and Post graduate courses in Commerce (M.Com) and Economics (M.A). With its motto “Knowledge and Empowerment”, the Institution is striving hard to meet the standards of higher education and has crossed many mile stones moving ahead of its ‘Golden Year’ with a lot of progressive learning activities. The NAAC Re-accreditation with grade ‘A’ in 2017 aptly reflects the progressive march of the college.

About the Seminar

Teaching English Language and literature at the under graduate level has become a tough job as the learners are from varied backgrounds and the teacher finds it hard to cater to the needs of individual students. Innovative teaching is a necessity for all teachers in order to meet the educational needs of the new generations. However, teachers’ competency for innovative teaching is a key factor influencing innovative teaching performance.

Traditional methods of reading News-papers, books and novels are also very good methods to teach the language. When the traditional methods are modified along with some innovative ideas, the entire learning and the teaching process is enriched and guarantees a success in efficient learning. Learner strategies refer to language learning behaviour that learners actually employ to learn and regulate the learning of English.

Creativity and innovation is the essence of teaching and learning in the Social sciences discipline as well. Our students are tired of the old school approach to learning a language – they want something practical, relevant and useful for their professional life.

The need of the hour is to find out innovative ideas to make ones teaching methods effective. We need innovative ideas that will help teachers reinvent their teaching methods and make their classes more interesting. The purpose of this seminar is to bring about innovations that can change English language teaching and learning.

Theme

“Innovative Methods and Techniques in Teaching and Learning English Language and Literature at the Undergraduate Level”

Sub-Themes

- Most effective strategies for teaching English
a). Prose. (b) Short Fiction c) Poetry d) Drama for degree classes (Optional/Language)
